WWW.LOCKERSMFG.COM

RELIABLE LOCKERS. RELIABLE COMPANY. RELIABLE PEOPLE.

**WE BUILD LOCKERS FOR  
OUR MOST IMPORTANT  
CRITICS. YOU!**

**LOCKERSMFG** adds reliable features to every locker. Features include: premium cold rolled and galvanized steel, steel rivets instead of aluminum (knockdown lockers), continuous hinges instead of 2 or 3 inch knuckle hinges, a minimum 2 mil thick polyester powdercoat finish.

**“I need reliable lockers  
that fit my budget and  
have all of the features I  
want”**

— EVERY CUSTOMER

## OUR VISION

DELIVER VALUE

**LOCKERSMFG** works with customers to create products that deliver maximum value. This process is part of our desire to build the most identifiable locker manufacturing company in America, while creating excellent opportunities for our employees.

## COMMUNITY

WE WANT TO IMPROVE OUR WORLD

As a company and thru our employees, we want to make our hometown a better place. **LOCKERSMFG** encourages and sponsors community involvement. From youth basketball to church startups to volunteering, we want to make a difference.

## MISSION STATEMENT

To be the locker manufacturer of choice for all architectural specifications.

*any design. any material. any technology*

**WE STRIVE TO EXCEED EVERY STANDARD OF EXCELLENCE  
OUR CUSTOMERS EXPECT**

Established in 2013, LockersMFG was created to address a need in the locker industry. The industry needs a leader in quality locker manufacturing — one that cares about the environment, its employees, and the world around us all. LockersMFG supplies quality lockers backed by our Lifetime Warranty. Our customers include the largest Fortune 500 companies and schools across America. Our manufacturing and quality control methods create unmatched products. Let us demonstrate to you our dedication to building high-quality, affordable lockers in America.

## YOU NEED LOCKERS MADE TO YOUR EXACT SPECIFICATIONS

As LockersMFG grows, we encounter numerous clients disappointed in the locker choices available. All too often, customers must choose from one of several standard models a locker company offers.

LockersMFG offers the same industry standards. Yet, we also understand each customer and job is unique. You have specific requirements that a standard spec will not always meet.

LockersMFG can tailor every locker we manufacture to your specific needs. We don't discourage customization. We welcome it. LockersMFG knows that by delivering the exact locker our customers desire, we are providing a level of service not

typically found in the locker industry.

Notably, we realize environmental protection is a shared concern of all. LockersMFG lockers are made from metal which contains both pre-consumer and post-consumer recycled steel, preventing countless tons of metal from reaching landfills.

We look forward to working with architects, design professionals, contractors, and end users as we strive to be the number one locker manufacturer in America.

Let us show you the difference in the LockersMFG process. Feel free to visit our website, email, or call to learn more about LockersMFG today!

## 90% +

Recycled steel used in the manufacturing of our metal lockers.

## 1370+

Tons of metal lockers produced in 2018.

## LIFETIME
