

Knock Down SERIES

The Knock Down Series locker is designed to withstand daily use and abuse that is typical for most lockers. It comes with a standard 2 mil thick powder coat baked enamel finish, available in 24 standard colors as well as any custom color.

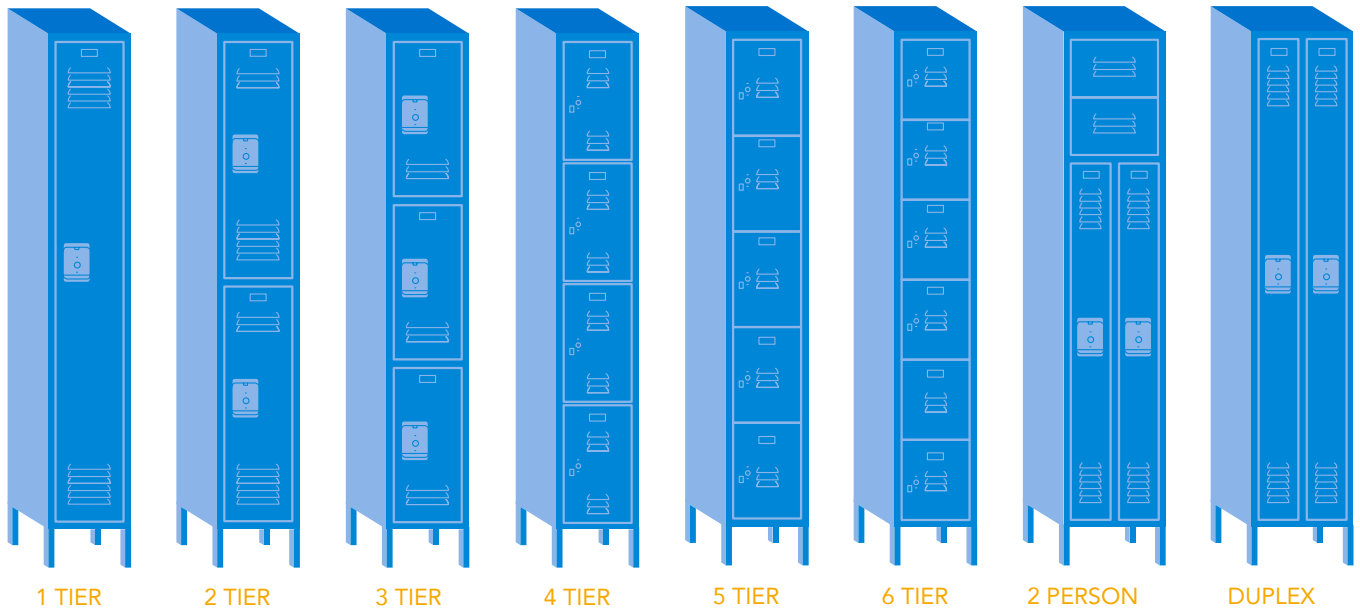

This series comes with a standard recessed handle for added safety and security.

The recessed handle prevents protrusions from the locker front. The handle accepts a built-in combination lock or a padlock.

All parts of the Knock Down Series locker are made from prime grade mild cold rolled sheet steel free from surface imperfection and capable of taking a high grade enamel finish.

Knock Down Series preferred for schools, employee lockers, and hospitals.
