

All Welded SERIES

The All Welded Series lockers are a good choice when you need superior resistance to hard use and abuse. All of the components are welded into a single rigid unit to resist damage for the life of the product. It comes with a standard 2 mil thick powder coat, available in 24 colors as well as any custom color.

The door frame and sides are 16 gauge. Backs, tops and bottoms of each locker group are made from one piece of steel metal that spans multiple lockers. The doors are 14 gauge steel and have a 16 gauge continuous piano hinge riveted to both door and frame. Sides, tops, bottoms and shelves are 16 gauge steel. Backs are 18 gauge.

This locker series is available in standard ventilation models with diamond perforated doors and sides or with solid side and doors with or without louvers. The perforated models are ideal for use where ventilation is important to aid the drying of uniforms or other athletic gear. All accept built-in locks and padlocks and have rubber bumpers on the latch hooks to reduce noise.
